British Periodical Literature.

REPUBLICATION OF
The London Quarterly Review,
The Edinburgh Review,
The North British Review,
The Westminster Review,
—AND—
Blackwood's Edinburgh Magazine.

The wide spread fame of these splendid Periodicals renders it needless to say much in their praise. As literary organs, they stand far in advance of any works of a similar stamp now published while the political complexion of each is marked by a dignity, candor, and forbearance, not often found in works of a party character.

They embrace the views of the three great parties in England—Tory, Whig and Radical—"Blackwood" and the "London Quarterly" are Tory, the "Edinburgh Review" Whig, and the "Westminster Review" Radical. The "North British Review" is more of a religious character having been originally edited by Dr Chalmers and now, since his death being conducted by his son-in-law, Dr Hanna, associated with Sir David Brewster. Its literary character is of the very highest order. The "Westminster," though reprinted under that title only, is published in England under the title of the "Foreign Quarterly and Westminster," it being in fact a union of the two Reviews formerly published and reprinted under separate titles. It has, therefore the advantage by this combination of uniting in one work the best features of both as heretofore issued.

The above Periodicals are reprinted in New York, immediately on their arrival by the British steamers, in a beautiful clear type on fine white paper and are faithful copies of the originals, Blackwood's Magazine being an exact fac simile of the Edinburgh Edition.

TERMS.

For any one of the four Reviews,	$3.00 per annum
For any two do	5.00 "
For any three do	7.00 "
For all four of the Reviews,	8.00 "
For Blackwood's Magazine,	3.00 "
For Blackwood and three Reviews	9.00 "
For Blackwood and the four Reviews,	10.00 "

Payments to be made in all cases in advance.

CLUBBING.

Four copies of any or all the above works will be sent to one address on payment of the regular subscription for three—the fourth copy being gratis.

EARLY COPIES.

Our late arrangement with the British publishers of Blackwood's Magazine, secures to us early sheets of that work by which we are enabled to place the entire number in the hands of subscribers before any portion of it can be reprinted in any of the American Journals. For this and other advantages secured to our subscribers we pay so large a consideration that we may be compelled to raise the price of the Magazine.

☞ Something may therefore be gained by subscribing early.

Remittances and communications should be always addressed post paid or franked to the Publishers,

The Great Remedy for Sore Throat

GLEET, Stricture, Inflammation, Complaints, &c. Dr DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known having practiced in the principal cities in the Union, during the last 40 years. His only reason for introducing the Paste in this public manner, is the conviction that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks.

Dr D most solemnly affirms that during his practice of forty years this Paste has never, in one single instance, failed of effecting a cure in a few days without any change of diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years but after taking the Paste for a few days the angry symptoms disappeared and the patients were discharged, entirely cured.

If the unfortunate, instead of drugging themselves with quack nostrums, would purchase only one box of the Arabian Paste we should not see so many emaciated bodies and sallow countenances as we do at the present time.

☞ In case this Paste should fail to effect a cure in the shortest possible time, ten times the price paid for it will be given the purchasers on returning the empty boxes.

For sale only by the original inventor and sole proprietor Dr PETER G DOUGLASS, at his Office, No 55 Union street, Boston at $5 per box where he can be confidently consulted on every disease incident to the human frame, and the patient rely upon the most beneficial course of treatment that can possibly be adopted.

Never was there a medicine honored with STRONGER RECOMMENDATIONS. It CURES when every thing else fails, the

Prepared by STEPHEN JEWETT, son of the late Dr STEPHEN JEWETT, of Rindge, N H

Principal Office,—No. 30, India Street, Boston.

Please read the following certificate of a highly respectable and aged gentleman

RINDGE, N H, April 1, 1848.

To all whom it may concern

I the undersigned do hereby certify, that I was acquainted with the late Dr Stephen Jewett from my boyhood up to the time of his death and have seen his nearest neighbor can testify to his medical skill and knowledge of Botany, with hundreds of others now living, and that in the year 1814 I was afflicted with jaundice palpitation of the heart pain in the side, and general debility, so as to be unable to attend to any business and being a neighbor of the late Dr Stephen Jewett I had recourse to his far famed Bitters and Plaster and by their use was permanently cured. Since the above named date, I have used Dr Jewett's medicines with equally good effect as prepared by Stephen Jewett son of the late Dr Stephen Jewett of Rindge N H and I cheerfully recommend them to the public as safe and invaluable medicines,—and being composed entirely of vegetables I think them far better suited to the diseases of our climate than need ones composed of minerals or foreign nostrums. Try them, and judge from facts and experience. I consider Dr Stephen Jewett's Strengthening Plaster far superior to any external application for the purposes for which it is recommended of any that I have ever known.

EBENEZER BLAKE

DR STEPHEN JEWETT'S
Health Restoring Bitters.

These Bitters acting as they do upon the Stomach Liver and Bowels removing all the morbid secretions thereby purifying the blood and invigorating the digestive organs not only cure diseases that already exist, but they also fortify the system against all attacks of disease. It is a common remark among those who have used Dr Jewett's Bitters that they have but little fear of being sick. The remark is strictly true, for while the stomach and bowels are kept in a good condition and the blood pure all the great predisposing causes are removed and the whole system is fortified against those morbific influences which under less favorable circumstances would have engendered perhaps fatal disease.

In order that the public may know that they are offered a truly excellent article, we append the following certificate which may be seen with numerous others, in their original, by calling on the proprietor

BOSTON, May 15, 1848.

To all whom it may concern.—This may certify that I have been for years troubled with a scrofulous humor which has been very troublesome, and was fast undermining my health and had severe pains in the back, loss of appetite, languor &c general debility.

A short time since I commenced taking Dr Jewett's Health Restoring Bitters, and in a very short time my humors and pains left me, my appetite improved and my health has not been so good for years all of which I attribute to Dr Jewett's Health Restoring Bitters.

(MRS) E. H. RUSSELL, Beach Street

DR STEPHEN JEWETT'S
Pulmonary Elixer.

Nearly one third of all the deaths that occur in New England are caused either directly or indirectly by diseases of the Lungs and Chest. Why is this great sacrifice of human life? How happens it that the brightest intellects, of the highest promise, the hope and support of declining years are smitten down in early life? Why is it that so many families have been made desolate by that fell destroyer Consumption? And how happens it that so many interesting and lovely children are cut down every year by those dread diseases, the Quinsy and Croup? Is it because the diseases are incurable? These questions will tell you these diseases can be cured,—if taken in season.

It is true these diseases can be cured with almost absolute certainty—if taken in season. Everybody should be aware of this fact and provide themselves with Dr Jewett's Pulmonary Elixer.

The following certificate among numerous others which have been received are appended for the benefit of those who desire to see certificates.

WINCHENDON Mass March 10, 1848

Stephen Jewett—Dear Sir—I feel it a duty to you and to the public generally, to inform you all who may have been afflicted as I have that I have been entirely cured of a severe and long continued cough, by one bottle of your Pulmonary Elixer.—For months I have been a great sufferer. I had pain in my left side, sore throat, constant cough, and raised a good deal of bad looking matter. My strength was gone and my flesh was wasting away. I took many things without benefit and was steadily getting worse, till I procured your Pulmonary Elixer which has cured me, and I cheerfully recommend it to all who are troubled with coughs.

Yours truly
THOS CUMMINGS.

DR STEPHEN JEWETT'S
Strengthening Plaster.

These Plasters possess the property of removing Pain arising Lameness Cramp Pain or Weakness in the Back Joints or Side, Rheumatism, Weak Stomach, &c., and when used in connection with the Bitters in Liver Diseases will prove very beneficial in removing the peculiar pain between the shoulders and in the side and back, well known to those suffering with such diseases. This Plaster from the quantity and quality given is vastly cheaper than and superior to the "Poor Man's" or any other Plasters and can be made any size wanted without waste. One roll will make five good sized Plasters. A single trial will be all the certificate necessary.

FRIDAY, JANUARY 26, 1849.

Expressions of regard for Judge Allen on his retiring from the Bench.

The district Court closed its session in this city on Wednesday last The usual proclamation of the Crier had been made that the Court was about to close, when Gov Kent addressed the Court very nearly as follows —

May it please your Honor

The proclamation just made reminds us that this term of the Court is about to close, and that with its termination, the connection of your Honor with its labors and responsibilities will be ended by your voluntary resignation The Bar of Penobscot in view of this event, which severs a connection which has subsisted for ten years between your Honor and the members, have deemed it a duty due to you and to their own feelings to adopt and present on this occasion resolutions expressive of their appreciation of your judicial character and services, and their sincere regret that those services are ended

The resolutions are as follows —

At a meeting of the Penobscot Bar, holden at the Court House, on the 24th of January 1849, the following resolutions, reported by George B Moody Esq, from the committee previously appointed, were unanimously adopted

Resolved That the Bar of this County painfully appreciating the loss they are about to sustain by the retirement of the Hon Frederick H Allen from the Bench of the District Court cannot allow the occasion to pass away, without such expression of their respect for his character and their regrets at the severance of those intimate relations which so honorably to the Judge, and so agreeably to the profession, have for so many years subsisted between them

Resolved, That we perform an act alike grateful to our feelings and due to merit, when we record our acknowledgment that the administration of the law by Judge Allen has been characterised by those qualities which give most lustre to the judicial station—by ample learning quick perception just discrimination, clear exposition, lucid arrangement of argument, and a comprehensive grasp of facts—intellectual merits aided and illustrated by an unvarying impartiality and by a personal deportment at once dignified patient and courteous ensuring that deference which is the meed of the Bench while it gracefully and kindly yielded the consideration due to suitors to the officers of the Court and the Bar

Resolved, That in thus recognizing his official merits we are not unmindful of his high personal character as a citizen, and the many talents and virtues which have secured to him in his intercourse with society, the attachment esteem and respect of his associates and of this community—and we heartily tender to him our sincere regrets at his proposed departure from us and our cordial wishes that wherever the remainder of his career may be passed, it may be signalized by usefulness, attended by prosperity and crowned with honor

Attest, ALBERT W PAINE Secy

These resolutions drawn by an esteemed brother and adopted unanimously by the Bar so fully and so happily express our sentiments, that I can add nothing to them, by any remarks of my own Be assured, sir, they are not mere formal and cold hearted expressions called forth by custom as idle compliments, but the sincere, hearty and truthful expressions of their esteem and respect for you as a Judge, a citizen, and a member of our profession It is a source of congratulation and confidence, that in the midst of the excitements of party struggles and changes of political life, our Judiciary has ever stood independent, impartial and steadfast in the administration of the law, and has proved itself true to its high vocation It is alike honorable to our Judges and our people, that the only road to judicial honor and respect is that of sound knowledge, ready discrimination and unwavering integrity and independence And it is but the judgement of the people, when we say that the ermine of justice, which your honor now puts off, has received no spot or stain, since it fell upon your shoulders

I renew the thanks of the Bar for the uniform courtesy and kindness which has marked the intercourse of your Honor with its members and to assure you that they will ever remember with gratitude and pleasure the days of your judicial administration

The hour that separates friends is always a painful one and when I remember the uninterrupted and firm friendship of so many years now to suffer from separation at a time of life with both of us when it is so much easier to cherish old friendships than to form new, I feel personally, what I cannot here properly express But I derive satisfaction in my regret, that I have been selected by my brethren to express their feelings and as their organ to convey to you their wishes for the future

To you may the future be as prosperous and happy as the past has been useful and honorable

Judge Allen rose to reply, the whole Bar at the same time rising, when he addressed them substantially as follows —

It is impossible for me adequately to express my feelings on this occasion or to acknowledge as I should this expression by the Bar, of their respect, confidence, and attachment The testimony is to me of the highest value, coming as it does from a Bar, to whom I have not only sustained the relation of a Judge, and a brother in professional practice but to many of whom the more intimate relation of a friend and companion in the walks of private life

My resignation will take effect the present month, after a judicial experience of more than nine years, and this is probably the last day in which I shall discharge the functions of a Judge in open Court and I might perhaps, have very properly availed myself of the occasion to have alluded to those who, during this period, have retired from the scenes of active life as well as to the younger class of professional brethren who have entered upon the stage, and who I trust, will secure an honorable fame But I cannot do it now

The office which I now hold, and which I am about to surrender is one of honor and high trust It has its labors, its trials, and its responsibilities It has also its compensations and its pleasures Its duties are onerous and sometimes difficult, and next to the consciousness of having intended to discharge those duties with fidelity is the assurance, which you who are able to appreciate them, have this day renewed to me, that my efforts have not been entirely unattended with success

For the courtesy and kindness which have always marked our intercourse, for your aid and cooperation in the administration of the law, and for your expression of personal regard, I tender you my most grateful acknowledgments And you will allow me to add that my gratification has been heightened by the manner in which your resolutions have been communicated by a gentleman for whom I entertain so much respect, and with whom it has been my good fortune for many years to have been associated in the friendly relations of private life

☞ Mrs Fanny Kemble Butler's case, it is at last determined, will go to jury It is said that this is what Mr Butler has been desiring — Of course Mr B and his able counsel knew his case better than a mere spectator can, but give us any other opposition before a jury than a woman's arts and eyes

"Oh father what a hell of witchcraft lies
In the small orbed one particular tear"

☞ The farewell dinner to Judge Allen by the Penobscot Bar will take place at the Bangor House this afternoon at 5 o clock

☞ We publish to-day the official news which has gleamed out through our telegraphic despatches for a few days past This news was brought by a government express in sixty-four days The news is probably true, strange as it is But the fact of its truth ought not to be sufficient to cause the heads of our people to be turned, and lead them to forsake the old fashioned methods of acquiring a living by honest industry Bangor with those who have already departed and those about to go has a fair, and it seems to us, a sufficiently large representation among the gold seekers Those of us who remain should keep quiet, and cool, and patient and console ourselves with the reflection, that gold is not the highest good of man

It would be pleasant, no doubt, for our people generally to have sufficient capital to carry on all fair enterprizes and improvements But regular habits and few wants, and intellectual culture, and soul elevation are better than to abandon all for million of dollars in gold dust

If the amount of gold in California holds out, and people gather it up by thousands and millions of dollars its influence must be felt here Let us wait, then and see to what this great and exciting matter is tending The meanest man among us would not give his life for the world's wealth There is something in that To live to enjoy life and home, and friends—to have few wants—to improve the mind and elevate the affections and to become the receptacle of truth and love from the Lord—are better far than the acquisitions of gold while these are absent

But when the mind is inflamed with high hopes and extravagant anticipations of acquiring hidden riches, and returning among old friends after the absence of a year or two with a bag full of gold, men will not heed any thing like such doctrines as we have offered them Well, we offer it rather for those disposed to remain at home in an orderly and quiet state

The New York Express after taking various views of the subject of gold finding and gold digging thus says

It is idle an utter waste of pen and ink however to speculate or philosophize now, upon what is to be the *finale* of this extraordinary and altogether unparalled state of things We cannot arrive at conclusions—we cannot penetrate the future nor see the end of this wonderful movement by referring to the history of any nation under the sun—We have no precedent from which to draw an inference It is true Spain had her gold mines and her gold diggers—on this continent too—but it so happened tha all or nearly all of her adventurers were obliged to carry the sword in one hand while they picked up the precious metal and filled their pockets with the other Peace undisturbed peace reigns from one end of California to the other and just wrested from Mexico though it be and the only strife seems to be who shall get into the *richest hole* Yankee, English Scotch Hibernian—Anglo-Saxon and Anglo-American—dig away in perfect harmony alongside of the copper colored aborigine the yellow skinned Mexican and even the greasy faced Chinese Soon the native of Japan will be on the beat and all Polynesia already begun to migrate we see will follow after England will send her ships and her gold diggers as we are sending ours The wooden walls of every maritime nation will be drawn as with loadstone to the shore of the Pacific and the mind is lost in contemplation of what is to follow What is government to do if government can do any thing, in so anamolous a state of things? Men's minds operated upon by gold are hard to deal with, and if ever there was a time in the history of the country when wise heads were called upon to deliberate that time is now What was foreseen awhile ago is now beginning to happen Anarchy bloodshed and civil strife—not political but social and therefore more deadly and destructive—have already set in, and surely, if Government is impotent to check the *madness* to which all things seem tending in our newly acquired territories—gen, it can at least do something to prevent the throat cutting, and life taking that there is too much reason to fear, are inevitably to ensue

CALIFORNIA NEWS.

OFFICIAL ANNOUNCEMENT OF THE GOLD INTELLIGENCE.

From the Union

Extract from a letter from Thomas G Larkin, Esq late consul, and now navy agent of the United States, to the Secretary of State dated at Monterey, Nov 15th, 1848, and received in this city on Friday evening last

The digging and washing for gold continues to increase on the Sacramento placer, so far as regards the number of persons engaged in the business and the size and quantity of the metal daily obtained I have had in my hands several pieces of gold, about twenty three carats fine weighing from one to two pounds Indeed, I have heard of one specimen that weighed twenty five pounds There are many men at the placer who in June last had not one hundred dollars, now in possession of from five to twenty thousand dollars, which they have by digging gold and trading with the Indians Several, I believe have made more

A common calico shirt or even a silver dollar has been taken by an Indian for gold, without regard to size, and a half to one ounce of gold—say $8 to $16—is now considered the price of a shirt while from three to ten ounces is the price of a blanket One hundred dollars a day for several days in succession was and is considered a common remuneration for the labor of a gold digger though few work over a month at a time as the fatigue is very great From July to October one half of the gold hunters have been all sick either with the fever and ague or the intermittent fever, and 20 days absence from the placer during those months is necessary to escape these diseases There have not however been many fatal cases

The gold is in value, from the smallest imaginary piece in size to pieces of one pound in weight at $16 per troy ounce for all the purposes of commerce but those who are under the necessity of raising cash to pay duties to the government are obliged to accept from $10 to $11 per ounce All the coin in California is likely to be locked up in the custom house, as the last tariff of our Congress is in force here in regard to the receipt of money

Could you know the value of the California placers as I know it you would think you had been instrumental in obtaining a most splendid purchase for our country to put no other construction on the late treaty

The placer is known to be two or three hundred miles long, and as discoveries are constantly being made, it may prove 1,000 miles in length—in fact, it is, not counting the intermediate inlets yet unexplored From five to ten millions of gold must be our export this and next year How many more years this state of things will continue, I cannot say You may wonder why I continue my correspondence? I answer, from habit, and your many remarks of the interest you take in my letters

NAVY DEPARTMENT

Extract from letter No 34 October 25, 1848 from Commodore Jones to the honorable Secretary of the Navy

"Nothing, sir, can exceed the deplorable state of things in all Upper California at this time growing out of the maddening effects of the gold mania I am sorry to say that even in this squadron some of the officers are a little tainted and have manifested restlessness under moderate restrictions imperiously demanded by the exigencies of the times, as you will perceive by the enclosed papers, addressed to three of the lieutenants

I am, however, happy to say that I have not been disappointed in the good effects of the means employed to prevent desertion, and to maintain order in the squadron, as but one desertion has taken place since the rush of sailors from this ship on the evening of the 18th inst and that the unwarranted opinions of the few officers who were skeptical as to the right or efficacy of the means employed to prevent desertion and to punish crime have undergone a most favorable change whereby I shall be enabled to keep on this coast until the whirlwind of anarchy and confusion confounded is superseded by the establishment of some legal government potent enough to enforce law and to protect life and property which at this time is in great jeopardy everywhere outside our bulwarks

[No 32] Flag Ship Ohio,
Bay of Monterey, Nov 1, 1848

Sir By Lieutenant Lanman, who left here on the 26th ult, in the ship 'Izaak Walton,' for the coast of Peru we expected to intercept the Panama steamers I forwarded several communications acquainting you with my movements up to that date, which I hope you will receive early and that they may prove satisfactory

The enclosed extract from my last letter (No 34) will convey the unpleasant tidings of the utter prostration of all law and order in our California possessions, brought about by the extraordinary developments of gold in this vicinity

* * * * * * *

I have the honor to be your obedient servant,
THOS A C JONES,
Commander in chief U S naval forces,
Pacific Ocean

Hon J Y Mason,
Secretary of the Navy

Flag Ship Ohio Bay of Monterey,
[No 36] November 2 1848

Sir In my letter No 24, from La Paz I recommended the retention on this coast of all cruising ships of the Pacific squadron, and pointing out how they could be kept in repair and manned without returning round Cape Horn to the Atlantic States When that recommendation was made I had no conception of the state of things in Upper California For the present, and I fear for years to come, it will be impossible for the United States to maintain any naval or military establishment in California, as at present no hope of reward nor fear of punishment is sufficient to make binding any contract between man and man upon the soil of California

To send troops out here would be needless, for they would immediately desert To show what chance there is for apprehending deserters I enclose an advertisement of which had been widely circulated for a fortnight, but without bringing in a single deserter Among the deserters from the squadron are some of the best petty officers and seamen, having but few months to serve, and large balances due them amounting in the aggregate to over *ten thousand* dollars

There is a great deficiency of coin in the country and especially in the mines, the traders by taking advantage of the pressing necessity of the digger not unfrequently compel him to sell his ounce of good gold for a silver dollar and it has been bought under like circumstances, for fifty cents per ounce, of Indians To this state of dependance laboring miners are now subjected, and must be until coin is more abundant Disease, congestive and intermittent fevers, is making great havoc among the diggers, as they are almost destitute of food and raiment, and, for the most part, without houses of any kind to protect them from the inclement season now at hand

The commerce of this coast may be said to be entirely cut off by desertion No sooner does a merchant ship arrive in any of the ports of California than all hands leave her, in some instances *Captain, cook and all* At this moment there are a number of merchant ships thus abandoned at San Francisco, and such will be the fate of all that subsequently arrive The master of the ship Izaak Walton, that brought stores for the squadron at this port offered without success, $35 per month to Callao, and thence $20 per month home, to abandoned volunteers, not seamen

We were obliged at last to supply him with four men whose terms of service were drawing to a close This state of things is not confined to California alone Oregon is fast depopulating, her inhabitants pour into the gold diggings and foreign residents, and runaway sailors from the Sandwich Islands, are arriving by every vessel that approaches this coast

Very respectfully,
Your obedient servt,
THOS AP C JONES
Commander in Chief Pacific squadron
Hon J Y Mason, Secretary of the Navy

WAR DEPARTMENT

Monterey (Cal) Oct 23 1848

General I arrived here on the 18th inst from San Diego, and have paid the four companies of the 1st New York regiment in full and they have all started for the gold mines The three companies composing the command of Lieut Col Burton are now here, and will be mustered out to-day or to-morrow and paid by Major Hill immediately as the residents are extremely anxious to get rid of them, they have the power in their power Nearly all the men in company 'F' 3d artillery have deserted

We have the Ohio, Warren, Dale, Lexington and Southampton in port, but they cannot land a man, as they desert as soon as they set foot on shore The only thing the ships could do in case of an outbreak would be to fire upon the town—The volunteers at Santa Barbara Los Angelos &c behaved very well—no murmuring or difficulties of any kind with them, they complained that they were not allowed travelling allowances

The funds from Mazatlan have at last reached here, the amount is $130,000 It arrived very opportunely as we have expended nearly all we had The amount is a great deal more than will be required, as there are at present but two companies in California—one of 1st dragoons, the other of 3d artillery, the latter reduced to mere skeleton by desertion, and the former in a fair way to share the same fate I should suppose 20,000 would be sufficient to pay the present force (provided the companies are filled up) for a year Treasury notes are good for nothing now, bills on the United States could not be negotiated on any terms Gold dust can be purchased for eight or ten dollars the ounce and it is said to be worth $18 in the United States consequently, all remittances are made in it

Col Mason, and most of the army officers are at Fort Sutter Commodore Jones thinks it would be very imprudent to bring the public funds on shore, except in such sums as may be required for immediate use He does not like to leave a ship here on account of the difficulty of keeping the men

The gold fever rages as bad as ever, and the quantity collected has not diminished, but increased Provisions, clothing, and all the necessaries of life, are at most exhorbitant prices

Living was always expensive in this country, but now it passes all reason—board four dollars per day washing five to six dollars per dozen Merchants' clerks are receiving from $1,800 to $3 000 per annum salary! What the government will do or civil officers, I do not know Salaries will have to correspond with the times The pay of governors judges, &c, as allowed in the United States will hardly compare with that paid to salesmen and shop clerks here

I am, sir respectfully your obd't serv't,

A NATURAL HAIR DYE!

BALLARD'S IMPROVED LIQUID HAIR DYE is the best preparation that we have ever seen for coloring the hair. It will positively restore grey Hair to its original color, whether auburn, brown or black, surpassing in beauty even the most natural locks, retaining the gloss and softness of the original Sandy, light, or red hair can be matched with any darker shade.

From numerous laudatory testimonials, which may be seen at the manufacturer's wholesale depot, No. 51 Cortlandt street, New York, the following, from the celebrated Cristadoro, of the Astor House, is presented —

No 6 Astor House, New York, Sept 21, 1848 — Mr O. M Ballard—Dear Sir—It is but justice to you to say, that of all the preparations for dying hair I have tried none has answered so well the purpose, as your Improved Liquid Hair Dye, and with a great deal less trouble in using it than any other. I give you this testimony upon my solemn conviction that it is worthy the patronage of all who may wish to exchange gray, light, or red hair for a beautiful auburn, brown, or black; and from the peculiar softness and lustre which it imparts to the hair, the ladies cannot but give it a decided preference. Yours respectfully,

DR. CUMMINGS'S Compound Extract of Sarsaparilla and Dock.

THE ARTICLES above named are the principal ingredients of this medicine With these, both orders of vegetable origin are combined designed to render them more active, and consequently more immediately effective

The Dock, or rather a species of it, now ranks as a medicinal plant second to no one of the vegetable kingdom With the aid of a distinguished chemist, whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been ascribed to them Recently he conceived the idea of uniting them, which has resulted in the production of the compound. In this the ingredients are found to act in harmony and to lose none of the qualities which they separately possess

A larger portion of Sarsaparilla is soluble than has generally been supposed The extract most to be relied on and least liable to decomposition, is procured by subjecting the root to the action of the menstrua usually employed in extracting its virtues, for a long time, without the aid of any other accelerating agent None is permitted to be used in the compound, that has not been obtained by this process and that has been less than a year in preparation.

The Compound is recommended for Scrofulas Erysipelas, Ulcerous affections, Eruptions, and Mercurial diseases Also for the numerous maladies arising from sedentary employments, occupations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtasking the physical powers, and other abuses of the constitution among which are Neuralgia, Piles, Affection of the Liver, Bilious Complaints and Dyspepsia or Indigestion.

In diseases of warm climates, with which the proprietor become familiar in his practice in Havana, some years since, the compound will prove particularly efficacious, both as a remedy and preventative.

☞ This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life It was extensively prescribed by him while in practice, and it is believed to be in favor with his medical brethren in general, to whom he is known.

For the Removal and Permanent Cure of all NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM has been pronounced by distinguished physicians both in Europe and the United States, to be the *most valuable medicinal discovery of the Age*

Dr. CHRISTIE'S GALVANIC BELT and MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body giving tone to the various organs, and invigorating the entire system Also in

FITS, CRAMP, PARALYSIS AND PALSY,

Dyspepsia or Indigestion,

RHEUMATISM, Acute and Chronic, GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST,

Liver Complaint,

SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS AND PHYSICAL ENERGY,

&c &c

Nervous Diseases,

of such complaints are often one simple cause, that is

A Derangement of the Nervous System.

In all NERVOUS COMPLAINTS Drugs and Medicines *increase the disease* for they weaken the vital energies of the already debilitated system, while under the strengthening influence of the Galvanic Belt and Magnetic Fluid the nervous system is gradually restored to its former healthy action and vigor

The excellence of

Dr. Christie's Galvanic Curatives,

is established by the numerous and rare discoveries and cures daily effected in this city, and throughout the United States, which are of such a character as to defy contradiction or question, and which are fully attested by certificates of the most respectable character, which can be seen at the office of the Agent, and which will be published from time to time as occasion may require

The introduction of the Galvanic Curatives in the United States is of recent date

60,000 Persons

including all ages classes and conditions among whom were a large number of ladies who were in each case subject to nervous complaints have received

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up for ever by the faculty who had tried in vain

To illustrate the use of the GALVANIC BELT, and the case of a person afflicted with that horrible visitation, DYSPEPSIA, or any other nervous Disorder In ordinary cases of debility or nervous action by their action on the nerves and muscles of the stomach afford *temporary* relief but which leave the patient in a lower state and with injured faculties, after the action thus excited has ceased Now compare this with the effect resulting from the application of the GALVANIC BELT Take a Dyspeptic sufferer even in the worst symptoms of an attack, and simply tie the Belt around the body using the Magnetic Fluid as directed In a short period the morbific perspiration will act on the positive element of the Belt thereby causing a Galvanic circulation which will pass on to the negative and thence back again to the positive thus keeping up a continuous Galvanic circulation throughout the system Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED A few DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

The following letter, narrating one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey of distinguished attainments and extended reputation —

SIDNEY, New Jersey, July 14, 1848

DR A H CHRISTIE—Dear Sir You wish to know of me what has been the result of my own case of the application of THE GALVANIC BELT AND MAGNETIC FLUID My reply is as follows

For several years I had been suffering, from time to time, with a severe cough, the exemplanation of which no one but myself, I presume, ever suspected From my youth I had a predisposition to consumption, which was developed in the form of a severe cough, which, during the winter and spring months, would prostrate me for weeks together Physicians were consulted, and all remedies known to the faculty were resorted to, but in vain. About *fourteen years* since, in consequence of exposure to the weather in the discharge of my pastoral duties I became subject to a bronchial affection which soon became so painful as to render immediate suspension of my public labors necessary. My nervous system was now affected and as my Bronchial affection grew worse, my nervous debility increased. Physicians were consulted, but they gave me no relief. I continued under the care of one of the most eminent of the faculty for about *seven years*, but received no benefit from his prescriptions. I then became subject to severe attacks of spasmodic asthma, which would frequently confine me to my room for days together. I suffered more than I can express in words. I was induced to try the effect of a change of climate, and accordingly visited Virginia, but returned home entirely disappointed. I then tried the effect of a sea voyage, and visited Cuba, but returned worse than I went. I then tried the effect of a residence in the country, but all to no purpose. I was now entirely discouraged, and gave up all hope of ever being restored to health. I was now in a consumption, and my friends and physicians all gave me up to die. In this condition I remained for *three years*, suffering more than I can express in words. I was induced to try Dr Christie's Galvanic Belt and Magnetic Fluid, and after using them for a few weeks I found relief. I continued to use them for about *three months*, when I found myself entirely restored to health. I have now been restored to health for more than *two years*, and have had no return of my former complaint. I have recommended the Belt and Fluid to many persons, and in every instance it has proved successful. I have no hesitation in saying that I believe it to be the most valuable medicine ever introduced in the United States, and I would recommend it to all persons afflicted with any disease of the lungs.

Yours with great respect,

WM RUSSELL, 65 Catherine st

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never see them undertook it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester county,

Pordham, August 19 1847

Dr Townsend—Dear Sir, I have a little girl, seven years of age, who has been several years afflicted with Fits we tried almost every thing for her, but without success, at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her a trial of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise She is fast becoming rugged and hearty, for which we feel grateful Yours, respectfully,

JOHN BUTLER, *Jr*

FEMALE MEDICINE

Dr Townsend's Sarsaparilla as a strengthening and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Piles, Leucorrhœa or Whites, obstructed or difficult Menstruation Incontinence of Urine or involuntary discharge thereof and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident Nothing can be more surprising than its invigorating effects on the human frame Persons all weakness and prostrate, from taking it, at once become robust and full of energy and its influence It immediately counteracts the nervousness so the female which is the principal cause of Barrenness—it will not be expected of me, in case of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine healthy offspring

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No lady who has reason to suppose she is approaching that critical period, "*The turn of life*" should neglect to take it, as it is a certain preventative for any of the numerous and horrid ills diseases to which females are subject at this time of life This period may be delayed *for several years by using this medicine* Nor in ill cases valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It places the whole system renews permanently the natural energies—by removing the impurities of the body, not an ineffectual time as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most efficient medicine for purifying the system and relieving the sufferings consequent upon child birth ever discovered It strengthens both the mother and child prevents pain and disease, increases and nourishes the food—those who have used it think it indispensable It is highly useful both before and after confinement, and it prevents diseases attendant upon childbirth—as Costiveness Cramps, Swelling of the Feet, Dr pondency Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhoids and in regulating the secretions and equalizing the circulation it has no equal The great beauty of this medicine is, it is always safe, and the most delicate use it with success fully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin disfigured by the ashes lee used in soaps, beautifies in own production in the human face divine," as well as its garden of rich and delicately tinted and variegated flowers A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty It is to that which imparts the indescribable shades and flashes of loveliness that all admire, but none can describe This beauty is the offspring of nature—not of powder or soap If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paints and uses cosmetics, and the blood is thick, cold, and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious cosmetics, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexion, she should use Dr. Townsend's Sarsaparilla Thousands who have tried it, are more than satisfied, are delighted. Ladies of every station crowd our office daily.

NOTICE TO THE LADIES.

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff *a great remedy for females*, &c, and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicine have, since the great success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended it, though previously they did not. A number of these Mixtures, Pills, &c, are injurious to females, as they aggravate disease, and undermine the constitution.

SCROFULA CURED.

This Carriage completely proves that SARSAPARILLA has the perfect control over the most foul blood.

Dr. Townsend's

DR. CUMMINGS'S Compound Extract of Sarsaparilla and Dock.

THE ARTICLES above named are the principal ingredients of this medicine With these, both orders of vegetable origin are combined designed to render them more active, and consequently more immediately effective

The Dock, or rather a species of it, now ranks as a medicinal plant second to no one of the vegetable kingdom With the aid of a distinguished chemist, whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been ascribed to them Recently he conceived the idea of uniting them, which has resulted in the production of the compound. In this the ingredients are found to act in harmony and to lose none of the qualities which they separately possess

A larger portion of Sarsaparilla is soluble than has generally been supposed The extract most to be relied on and least liable to decomposition, is procured by subjecting the root to the action of the menstrua usually employed in extracting its virtues, for a long time, without the aid of any other accelerating agent None is permitted to be used in the compound, that has not been obtained by this process and that has been less than a year in preparation.

The Compound is recommended for Scrofulas Erysipelas, Ulcerous affections, Eruptions, and Mercurial diseases Also for the numerous maladies arising from sedentary employments, occupations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtasking the physical powers, and other abuses of the constitution among which are Neuralgia, Piles, Affection of the Liver, Bilious Complaints and Dyspepsia or Indigestion.

In diseases of warm climates, with which the proprietor become familiar in his practice in Havana, some years since, the compound will prove particularly efficacious, both as a remedy and preventative.

☞ This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life It was extensively prescribed by him while in practice, and it is believed to be in favor with his medical brethren in general, to whom he is known.
